## LANDSCAPE SERVICE

Artistic and satisfactory landscape effects are the result of careful planning and the proper use of the right material.

Why not consult us about your landscape problems? Suggestions and advice will be gladly given.

## GUARANTEE

If nursery stock purchased from us and planted by us at prices as listed in this catalog has been given proper care after planting, we will replace any plants that die from natural causes within one season, or not later than 6 months from date of planting.

**PLANTING AND DELIVERY COSTS ARE BORNE BY THE CUSTOMER.** Guarantee is subject to account being paid within 30 days, and does not cover losses from drought, severe winter, storms, insect injury, disease or other factors beyond our control.

If plants to be replaced are out of stock, credit will be applied to other plants we have that the customer may select. At no time will responsibility exceed original purchase price.

## PLANTING

The cost of planting, if we do it, is borne by the purchaser. Our charge merely covers the cost of labor, fertilizers, etc.

## DELIVERY

On large orders, where they can be combined, we intend to give free delivery within a radius of 30 miles from our nursery, unless Government regulations prevent it. On smaller orders a nominal charge for delivery will be made unless otherwise arranged at time of sale.

## Ornamental and Shade Trees

IN ADDITION to the trees which are valued for their shade, there are flowering trees which, at different times during the spring and summer, shower the lawn with their bloom. Do not forget that while shade trees add materially to the property value and landscape charm of your home, the initial cost is very small as compared with the enjoyment that you receive. The average shade tree is a long investment and returns your money manifold throughout the years of its usefulness.

The abbreviation "cal." means the caliper or diameter of the tree 6 inches above the ground.

**ALL PRICES SUBJECT TO CHANGE WITHOUT NOTICE**

Trees where B&B is indicated are dug with ball of earth and burlapped, otherwise trees are dug bare root. Balling charges for varieties not marked B&B are listed as follows:

## Flowering Shrubs

**W**HETHER planted individually or collectively, shrubs are an important feature in the adornment of any grounds. In groups they can be made to emphasize some feature of the lawn, to screen the garage, the laundry-yard, or some unsightly view. Among borders of the lawn, along walks and drives and in corners, collections of shrubs may be gathered that will give a succession of bloom from early spring until fall. In the list that follows will be found shrubs for all such purposes.

**Prices for Shrubs, except where otherwise noted:**

|                | Each   |                | Each   |
|----------------|--------|----------------|--------|

### *A Few Practical Hints on Planting*

Always keep roots covered when plants are out of the ground. Dig hole large enough to receive plant without bending roots. Break up subsoil and mix it thoroughly with rotted stable manure.

Set plants slightly deeper than they stood at the nursery.

Work in good soil among roots so as to leave no air-pockets.

Fill hole and tamp soil down thoroughly with the heel of shoe.

Leave slight depression around plant to catch the water, and water thoroughly.

A booklet with more detailed planting instructions will be gladly sent upon request, free of charge.

Yews, Azaleas and Andromedas do much to

## Broad-Leaf Evergreens

WITH few exceptions, no grounds, either small or extensive, should be without some representative of this rich and interesting group of plants. They endure shade, and their rich blossom and foliage effect makes them almost indispensable. Certain varieties of this class, such as Rhododendrons, Azaleas, and Laurel, ordinarily grow more satisfactorily and show to better advantage when planted in rather heavy masses. A deep, cool, moist subsoil, with proper drainage, is ideal. As a rule, they dislike lime, or limestone soil, and success will be more certain on such soils if they are planted in woods earth or mulched with peat moss. Oak leaves are ideal for covering the ground beneath them.

*There is always something of interest to be seen at Bulk's Nurseries, from the time the early Spring-Flowering Shrubs are a riot of color, through the blooming times of Azaleas, Rhododendrons, Dogwoods, Crabs, Japanese Cherries, Roses, Hardy Flowers and on through the rich foliage colors and berried effects of Autumn—always something of beauty and interest to be seen. We welcome visitors at all times and urge you to come and look around.*

## Evergreens

**I**N THIS group are contained some of the most valued plants for landscape effects. The diversity of color and habit of growth in this class provide truly “a plant for every place and purpose,” some for limited areas of foundation plantings or for bed and border uses, others for screens, hedges, windbreaks, and for group and specimen plantings. They are always desirable for both summer and winter effects.

### ABIES • The Firs

**Abies concolor.** *White Fir.* Rapid-growing evergreen, with long, bluish green needles, and of symmetrical, upright habit. Splendid as a lawn specimen, as a contrast with the darker foliage of other trees, and is also useful in screen and border plantings. It is a tree of great dignity.

# Evergreen Hedges

From time immemorial people have used hedges and fences to protect their property from intrusion and to secure privacy. Until recently an evergreen hedge meant quite an expense, but they have now come down to a price-level within the reach of every home-owner.

## ARBORVITÆ

**Pyramidal.** Because of its shapely habit of growth and deep green foliage, this makes a very fine hedge.

**T. occidentalis, Columbia.** *Columbia Arborvitæ.* Pyramidal form, with silvery-tipped foliage. An excellent variety for group plantings.

**T. occidentalis lutea.** *George Peabody Arborvitæ.* A well-known variety forming a broad pyramid, with golden yellow foliage that is strikingly contrasted against the grays and greens of other evergreens.

**T. occidentalis plicata.** *Giant Arborvitæ.* Pyramidal shape. Deep blue-green foliage with triangular whitish spots. As its name implies, it attains considerable height.

**T. standishi.** *Standish Arborvitæ.* This is a loose, open type of Arborvitæ, with rich green foliage that is more feathery in appearance than any of the other Arborvitæ. It is often used in informal plantings.

**Thuja occidentalis pyramidalis.** *Pyramidal Arborvitæ.*

This is one of the very best of the Arborvitæ. It is distinctly columnar in growth, while its glossy, dark green foliage is equally attractive both winter and summer. A formal plant, and fine for accents.

ROSES, CLIMBING. See Roses

# Bulk's Hardy Roses

**R** OSES—the mere name is an inspiration to garden lovers. Nothing can take the place of the Rose. Almost every home has room for at least a few. Roses will grow in any fertile soil, but are much improved in bloom, fragrance, and beauty by rich soil, liberal fertilizing, and good cultivation. Branches should be well cut back early each spring.

**All Roses, except field-grown Hybrid Teas and Tree Roses, carry our regular guarantee**

In addition to the above varieties, we carry a general line of Perennials and would be pleased to have your inquiries.

# Fruits

In the extremities of the lawn or upon the adjoining lot, plant fruit trees. They will bountifully reward you in the fruit they yield, which you will enjoy eating right from the trees or in winter as preserves and jam. The fruit-garden can easily be made a part of the scheme for beautifying your property. Flowers along the walk to the orchard will brighten the way and provide blooms for cutting.

### *Your Victory Garden*

will be a real contribution to the war effort and will help to stretch your family's rations. Take good care of what you plant. Use good seed, fertilizer and spray material, and with reasonably good weather you will be surprised at the amount of food you can raise on a small piece of land. Our best wishes to 1944 Victory gardeners.

## FRUITS FOR YOUR VICTORY GARDEN

Some bush fruits along the edge of your property and a few fruit trees where you have space for them will help out the family food supply. No ration card needed for what you grow yourself! Plant fruit now as a real investment for the future.
